

First in Foils. Since 1996.

FOILACK

THE WORLD'S LEADING LUXURY
CAR WRAP COMPANY

Corporate Fleet Branding and Everything in Between

MAXIMISING YOUR BRAND EXPOSURE THROUGH VEHICLE FLEETS

Established since 1996, headquartered in Germany, specialized in fleet branding and graphics and grew into line of luxury full wraps by the year of 2000. In 2012, foilack opened its first flagship workshop in the middle-east at the heart of Yas Marina Circuit with the most highly equipped and sound capacity arranged workshop.

We have been supplying specialist reflective livery to the majority of the UAE emergency services including Police, Ambulance and Fire services and grown steadily to become a major supplier of specialist reflective and printed vehicle graphics to the UAE and beyond.

Our experience in supplying and dealing with large, mobile fleets has helped us to expand to meet increased demand for large format digital print for vehicle wraps and larger graphics in house on the latest eco-friendly printers and materials.

We can meet all of your needs for innovative design and branding, through to efficient and effective production, with flexible and friendly account and project management. Foilack operates to serve the rising regions demands for car wrapping and corporate fleet solutions. Take advantage of our dedicated design team who can create you a unique design specific to your personal taste and styling needs. Digital design and printing work using unique special colors available with foilack.

foilack solutions for commercial and government cars..

More economic, more flexible: foilack converts regular vehicles into company cars and even offers solutions for police, fire brigade, ambulance and military purposes..

Premium car wrapping by foilack

Foilack's high quality foil wrapping systems allows you to create that unique look for your car whilst protecting its original paintwork from environmental abrasion and UV bleaching. Therefore retaining the cars resale value. Unlike paint the foil is effortlessly removed so you can customize your car again and again!

Feel unique and look

spectacular with foil designs by foilack

Marine Graphics

Foilack marine wraps and continues to be the largest supplier of boat graphics, decals, and wraps in the country. Custom graphic boat wraps from Foilack are sure to turn heads on the water. Advertise your business, showcase your fishing team, or simply show unique style when you choose our custom creations. Foilack graphics created by our team of experienced digital artists stand out at the marina, dock and on the open water.

Our expertise doesn't just stop at car wraps - it's time to make a bold statement with custom boat and jet ski wraps.

We've set out to create a whole division on wrapping specific to boats and watercraft. Boat wraps offer so many advantages over painting or gel coat, and are really becoming more and more popular among captains, fisherman, racers, businesses and more. Foilack Wraps has detailed boat wrap techniques and methods that produce an end product that stands apart from other installers. Our lasting, high quality wraps, professional boat wraps are why our clients stay with us, recommend us, and will only use us.

Protect your car from the elements with this high performance invisible protection foil that caovers the cars bodywork without changing the color! Long lasting and durable. Remove the foil and your bodywork is as new as the day you bought it.

PAINT PROTECTION FILMS (PPF)

Signature Features of our product:

Heat Activated Self-Healing Topcoat

The product will self-heal light scratches & swirl marks with a light heat application to the film's surface.

Non-Yellowing

Our proprietary film formulation will not yellow from UV exposure, ensuring protected areas are nearly invisible.

Discoloration & Stain Resistant

Don't worry about specs, spots, or splashes from contaminants. This product is stain resistant & will maintain clarity under the harshest conditions.

Prevents Wear & Tear

Stop rock chips, nicks & scratches in the paint, and keep your vehicle looking as good as the day it rolled off the lot.

Edge Seal Technology

Lifting & delamination are a thing of the past. Our signature Edge Seal Technology ensures film stays stuck & keeps surfaces protected from contaminants.

Before

PPF in MATTE Finish

Astonishingly durable and designed to protect vehicles, Paint Protection Film Ultra helps shield against stains, rocks, salt, insects and other road debris

PAINT PROTECTION FILMS (PPF)

Transforming, flat-finish automotive armor.

Film Matte delivers all the benefits of our Paint Protection Film Clear product with a head-turning, matte finish. It blends in with flat automotive paint, and can also be used alter the finish of glossy paints. Either way, Paint Protection Film Matte is a transforming automotive upgrade scientifically formulated for smooth installation and years of satisfaction.

Nano Ceramic Coating

Benefits of Nano Ceramic Coating

- **Paint Protection**

A nano-coating basically provides a strong, protective surface to the car's body that can block all manner of foreign matter and prevent them from causing damage to the car.

- **Last Longer**

A ceramic paint coating goes much further than an ordinary paint job for protecting the surface of the vehicle.

- **Car Stays Cleaner**

The more pitted a surface, the easier it is for dirt to find tiny pockets to sink into. As the name suggest, nano-coating works at the molecular level to ensure that the coating provided is extremely smooth and even.

- **No Need for Car Wax**

Getting a car waxed was the older equivalent of getting a special coating for your car to protect its surface.

Dent Removal

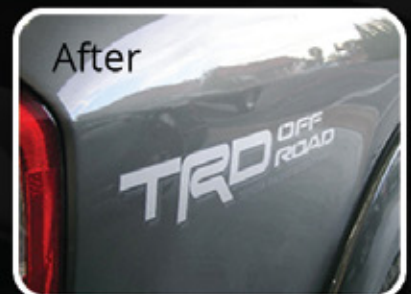

Look no further! All those irritating dents can be removed from your car's body without painting it, and not affecting your car's resale price.

Car dent repair service can repair almost all kinds of minor dents, like car dings and round dents that have been caused by the car being hit by small objects that have bent or torn the car metal. Treating a dent before it can get worse will help you save a good amount of money. This treatment is a quick and cost-effective car dent removal method.

Our technique is designed for both convex and concave dents. Simpler, faster and more cost-effective alternative compared to traditional body shops. Built on proven techniques, unique equipment, and genuine craftsmanship.

INTERIOR PROTECTION

PROTECT, RESTORE, AND RENEW YOUR CAR'S CABIN WITH FOILACK INTERIOR PROTECTION

Never lose the new car look - keep your interior surfaces free & clear of fine scratches, swirls, and blemishes. **Foillack** interior patterns are available now to protect everything from center consoles & touch screens to carbon fiber or piano black trim. With superior clarity, maximum durability, and a factory finish quality you expect, We **Foillack** can provide **INTERIOR PROTECTION** that never stops!

PROTECT EVERY SURFACE

CENTER CONSOLES & CONTROLS

Where the PPF Line-Up Performs

Interior vehicle surfaces are exposed to wear & tear just like your vehicle's exterior surfaces. In fact, sometimes the interior is worn even harder than the exterior! **INTERIOR PROTECTION** restores, renews, and protects the most trafficked areas in your vehicle like the gloss piano black trim, carbon accents, and anything that's getting scratched between trips.

TOUCH SCREENS & DISPLAYS

Stop the Growth of Microbes with PPF

With touch screens & modern control interfaces becoming the standard, it's never been a better time for anti-microbial protection. Constant touch can spread germs rapidly. Foillack PPF has been specifically formulated to inhibit the growth of microbes on the film's surface. With PPF covering your touch screens, you're taking **INTERIOR PROTECTION** to the next level.

DASHBOARD TRIM & FASCIAS

Interior Protection for a Glossy or Satin Finish

Minimal dashes with large accent pieces are stunning for design, but a problem for car care. With **INTERIOR PROTECTION** from Foillack, the solution is simple. Keep high gloss surfaces like piano black looking scratch free. Give your carbon accents a "dry weave" appeal with **STEALTH**. You can even renew scratched areas with a single Paint Protection Film application. Dashboard protection has never looked or performed this good!

DOOR PANEL ACCENTS & HANDLES

Preventative Protection from Everyday Use

Some of the smallest surfaces can be the trickiest to protect, but we've got you covered. Foillack **INTERIOR PROTECTION** includes everything from small door controls like window switches and mirror toggles, to door trims & even handle cups. Don't fret about your favorite rings, watches, and other accessories damaging your interior any longer.

When it comes to upgrading your interior or refurbishing the office and office design solution, vinyl finishes are a great solution to create a better environment that looks new, but without the price tag of having to buy new office furniture. We provide a full in office design service, from simple logo design to full company branding to Installation. Our installers are highly experienced vinyl fitters, so you can be assured the quality of the finished project will be second to none.

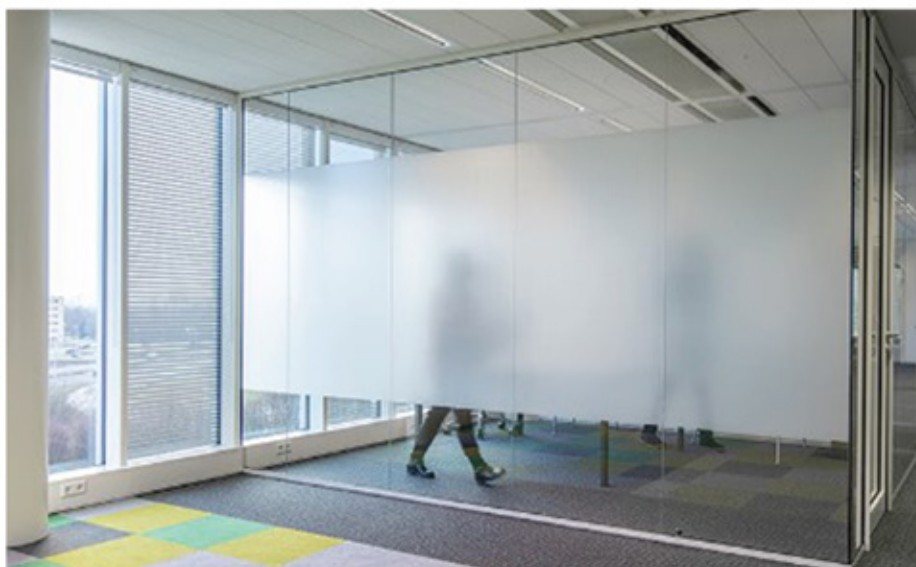

Our aim is to offer our clients a high quality service and finished product at affordable prices.

Looking for Office Tint or Decorative window film or Customizing your design on one for Office, Hotel, Restaurant, Commercial Building, School, Academic building, etc.,? You've found and reached to the right place! Prestige Window Films offers you the highest quality decorative window film products at a competitive price.
